DEMOBILIZATION ORDERS ISSUED

PLAN TO LAND N. H. TROOPS HERE

Why Not? Secretary Baker Has Been Appealed To and Governor Keyes Will Push Plan

Land New Hampshire troops at Portsmouth? Why not? The War Department has approved the plan for other states.

Secretary of War Baker gave assurances to this effect today. The secretary of war declared that it would be the policy of the war department to land as many returning troops at home ports as possible, so that the first greetings American soldiers received would come from the home folks.

In anticipation of this pronouncement, Baltimore today began plans for a gigantic celebration in honor of returning Maryland troops. It is expected in Washington that New York, Philadelphia and Boston will similarly arrange appropriate receptions for the home-coming American doughboys.

Upon learning of the action of the War Department The Herald at once got in touch with Governor Henry W. Keyes and he immediately took the

matter up with Secretary Baker. The New Hampshire men were in the thick of the fighting and they should be landed at their own home port.

Will at Once Send Troops Home—Thirty Thousand Daily From Home Camps—Overseas Men as Fast as Possible—Full Details of Plan—Revolution Threatened in Holland—German Warship Refuses Surrender and is Torpedoed

(By Associated Press)
Washington, Nov. 16.—Orders have been issued, Gen. March announced today, for the gradual demobilization of all troops in this country. Demobilization will be in the following order: First, Development battalions, 71 in number and comprising 98,492; 2nd, conscientious objectors not under arrest; 3rd, production divisions; 4th, central training schools for officers with some modification; 5th United States guards now numbering 135,000 men; 6th railway units; 7th depot brigades; 8th replacement units; 9th combat divisions. There are now in the United States 1,750,000 men under arms, Gen. March said. Orders which will result in the immediate demobilization of 200,000 men are already issued, and these men will be at their homes in the next two weeks. When the reduction plan is under full operation the chief of staff explained 30,000 men each day will be released from the army. Regarding the return of the troops in France Gen. March said the order in which the divisions will be withdrawn is being left to Gen. Pershing. It is the intention of the War Department, however, so far as is practicable, to return each division to the locality from which the majority of its men came. As an example, he said, New England soldiers might be brought to Camp Devens and paraded in Boston and other cities. Orders have been cable to Gen. Pershing to begin the return at once of all casuals, sick and wounded who can be moved and convalescents. Camps at home will be cleared out to prepare for the return of the expeditionary forces and the General indicated that the process would be expedited. All men now in the army have been or will be offered an honorable discharge from the emergency enlistment and on immediate re-enlistment to the new forces a furlough of one month will be given as an incentive to re-enlistment. It is announced that Congress will be asked to give each man discharged from the army, re-

gardless of whether he re-enlists, a bonus of one month's salary. Gen. March pointed out also that all soldiers are entitled under law to wear their uniforms for three months after discharge. This will make less difficult the immediate task of supplying civilian clothing to the demobilized army. Gen. Pershing has been directed to expedite the complete casualty lists showing the name of every man killed or wounded or missing up to 11 a. m. Nov. 11th. Gen. March would not hazard an estimate as to what the final total would be. Replying to a question as to the number of American prisoners in Germany, he said official records up to Oct. 16th gave the total as 5,733.

Berne, Nov. 16.—The German warship Wiefbaden refused to surrender to the revolutionists and tried to escape to neutral waters. It was pursued and torpedoed by a revolutionary warship and the entire crew of 330 men including many cadets, perished, according to advices from Berlin.

PORTSMOUTH'S OPPORTUNITY—IMPORTANT WORK TO BE DONE

The Future of Our Great Industries--We Must Help Them to Boom--We Can and Must Go On

Portsmouth has something to fight for—even with the war over—it is most important to every citizen, the man who works and the merchant. It is the continuance of its great ship building industries. This is no time to lay down and squabble—it is no time to turn and devote ones energy in another direction. Portsmouth now has the chance that it has longed for these one hundred years—the chance to become a great industrial center and with a big port business. Whether we go forward or backward is the question of the moment. We believe that it is possible to further increase the business importance of our city and to that end the editor of this paper proposes to work with the men and women of this section who are always willing to join in any and every good movement.

at other yards. Portsmouth will not suffer. We have friends in Washington and our new Senators, Keyes and Moses, thoroughly know the local situation. We need at least two new dry docks, more quay wall. It is docks that go to make for the importance of great repair yards. Our Merchant Marine will have here if we reach out for our share. Every citizen willing to help the great movement to help Portsmouth should get busy. Send your name to the Herald or Chamber of Commerce. Let Portsmouth play an important part in the rehabilitation of devastated Europe. Let's build more ships to send American products to every port in the world.

EXETER

Exeter, Nov. 16.—To accommodate the workmen at the ship and navy yards at Portsmouth, a special early morning car will be put on Monday morning, which is to leave the Exeter, Hampton and Amesbury street railway to connect with the 6.12 train for Portsmouth. The workmen are now going back and forth from the work by automobile, which method will be impracticable during the coming winter, and the early car will strengthen the argument against the discontinuance of the electric road.

The United War work fund is progressing slowly here. The figures announced Thursday were about \$1,500 and the quota is \$7,700. The daily figures are shown by a thermometer near the Exeter and Hampton Electric Co's office. The solicitors are to put in some extra work.

Mrs. Mary L. Fiske, wife of William E. Fiske, died Thursday evening at the Exeter Cottage hospital, following an operation. She was 43 years of age, and a resident of Exeter for 19 years coming here from Marion, Iowa, her husband being instructor in physics at the Exeter academy. She was born in Galesburg, Ill., Nov. 4, 1869.

Henry A. Day of the merchant marine, who has been at his home here on a furlough for two weeks, returned to duty today, reporting at Boston.

"CAN I BE CURED?"
How often have you heard that and cry from the victims of disease. Perhaps the disorder has gone too far for help, but often it is just in its first stages and the pains and aches are only nature's first cries for help. Do not despair. Find out the cause and give nature all the help you can and she will repay you with health. Look after the kidneys. The kidneys are the most overworked organs of the human body, and when they fail in their work of filtering and throwing off the poison that constantly accumulates in the system, everything goes wrong. GOLD MEDAL Haaren Oil Capsules will give almost immediate relief from kidney and bladder troubles and their kindred ailments. They will free your body from pain in short order. But be sure to get GOLD MEDAL. Look for the name on every box. In three sizes, sealed packages. Money refunded if they do not help you.

OBITUARY

Lieut. Van Dyke Fernald, R. A. F.
Lieut. Van Dyke Fernald, R. A. F., who is now reported as having died as a prisoner in Austrian hands, was born in San Francisco, in 1897, and was the son of Mr. Chester Bailey Fernald, the dramatic author, grandson of Naval Constructor R. L. Fernald, U. S. N., retired.

His American ancestry dated from 1530 through a long line of English colonial blood. At the period when America's entry into the war seemed doubtful, his protest was to surrender his American nationality in order to enter the British Army.

From Trinity College, Oxford, he entered the University Training Corps and was gazetted Second Lieutenant in the Royal West Surrey Regiment.

He was subsequently attached to the Royal Flying Corps, qualified as an observer, and saw six months' service on the western front. He then qualified as a pilot, and was sent to Italy.

He was last seen on July 23 over the Asiatic front, where, having finished a reconnaissance, it is believed he stayed behind his escort, on the initiative of himself and his observer, Lieut. Watkins, in the hope of meeting an enemy.

His brother officers testify to his joyous and unselfish nature, and to his keen and shining qualities as an aviator. (London Times Sept. 27, 1918).

STATES TOTAL OF LIBERTY LOAN.

P. W. Hartford, Editor The Herald:
Dear Fellow-Workers—

The final work of the Fourth Liberty Loan campaign has just been completed and I take pleasure in advising you that the total amount raised by New Hampshire in this Fourth Loan is \$29,315,510. Our allotment was \$20,372,800, and this is nearly 50 per cent over-subscription. The result is most gratifying to all of us, I am sure, and it is a great tribute to the patriotism of the citizens of our state.

We are all rejoicing over the cessation of hostilities and the prospects of peace. It is a great privilege to have lived to see this day come. But with peace will come very real problems, which will call for the best in us for their solution.

The glorious news of the week was in large measure made possible by the splendid response that the people made to the Liberty Bond issues, and

After discussing the work accom-

"The rearrangement and readjustment

the situation he urged that democra-
cy must not only be preached but

"I never expect to see the red flag
of anarchy in this country," he added.
"I believe in telling the workingmen

real reward to my way of thinking is
the reward that comes to every man

NOT MUCH DROP.

Washington, Nov. 15 (By Associated
Press).—Downward revision of the war
revenue to \$5,000,000,000 appears to be
assured, said Secretary McAdoo.

RAILROAD WAGES TO REMAIN SAME

Washington, Nov. 15.—The railroad
administration plans no reduction in
railroad employees' wages under peace
conditions, and likewise no material
lowering of freight and passenger
rates, it was stated authoritatively to-
day. Both are likely to remain at
their present levels, although with
many readjustments during the pe-
riod of changing the nation from war
to peace.

Even with recent advances railroad
wages now are not as high as those
paid for similar service in other in-
dustries. It was declared, and consequent-
ly, railroad administration officials feel
that no war bonus should be taken off
the wages of railroad employees. Events
of the past week have caused a pro-
nounced movement of men from war
industries to the railroads, where they
are insured greater permanency of
employment, officials said. Many of
these, particularly laborers, will be
given work on the railroads' delayed
program of improvements, which have
been held up mainly because of lack
of labor.

Director General McAdoo has de-
clared that he would lower rates as
soon as it was determined revenues
would be sufficient to pay wage in-
creases and the higher cost of mate-
rials, supplies and other transporta-
tion elements. It was explained today,
however, that the time when this
would be possible is not yet in sight.

MUST MAKE WHIRLWIND FINISH

(By Associated Press)
New York, Nov. 15.—Only a whirl-
wind similar to that of the Fourth Li-
berty loan can put the nation on top in
the \$170,000,000 drive for the United
War Workers. Officials pointed out
tonight that with five days gone there
was only \$30,000,000 or 52 per cent of
the amount asked for by the seven
organizations for the work of the year
subscribed.

Confidence was expressed, however,
that the whirlwind drive will be forth-
coming and not only the minimum
amount will be reached but the maxi-
mum of \$250,000,000 will be given.

MAY NOT RETURN SHIPS FOR MONTHS

(By Associated Press)
Washington, Nov. 15.—American
owned ships which were taken by the
Shipping Board, will not be turned
back for private management until the
food problems in Europe and Russia
are solved. It is probable that they
will not be turned back for nearly a
year.

U BOATS COST NORWAY 831 SHIPS, 1120 LIVES

(By Associated Press)
London, Nov. 15.—Norway lost dur-
ing the war 831 vessels, aggregating
close on to 1,250,000 tons, according
to official statistics. In addition 25
vessels of approximately 69,000 tons
were damaged by German submarines.
There were 1120 lives lost in these dis-
asters.

Ruddy Checks—Sparkling Eyes
—Most Women Can Have

Says Dr. Edwards, a Well-Known
Ohio Physician

Dr. F. M. Edwards for 17 years treated
scores of women for liver and bowel
disorders. During these years he gave in
his patients a prescription made of a few
well-known vegetable ingredients mixed
with olive oil, naming them Dr. Edwards'
Olive Tablets. You will know them by
their olive color.

These tablets are wonder-workers on the
liver and bowels, which cause a normal
action, carrying off the waste and poison-
ous matter in one's system.

If you have a pale face, yellow look, dull
eyes, pimples, coated tongue, headaches, a
listless, no-good feeling, all out of each
inactive bowel, you take one of Dr.
Edwards' Olive Tablets daily for a time
and note the pleasing results.

A Thousand of women as well as men
take Dr. Edwards' Olive Tablets—the suc-
cessful substitute for calomel—now and
then just to keep in the pink of condition.

the probate court room and on Friday
afternoon and evening there were a
great many cases in and many more
will be brought in today.

Under the army regulations the
Christmas boxes this year are of a
uniform size and are being shipped
under the direction of the Red Cross.
The size of the box and one to a sol-
dier officer, was made necessary by the
fact that there are over two million
men in France and if some regulation
was not made it would mean an ava-
lanche of bundles, which would require
a fleet of transports, as it is it will re-
quire the cargo space of several ships.
The boxes are furnished by the Red
Cross and must be brought back to
the Red Cross where they are in-
spected and delivered to the post
office. Sufficient postage to take the
box to Hoboken, N. J., the embarka-
tion port, is also required. This meth-
od stops all further inspection and the
boxes will go direct to the soldier
without being overhauled and in some
cases destroyed.

The original orders were that the
boxes must be ready for shipment by
the 15th, but an order issued yesterday
extends the time to Nov. 20, but
everybody who has boxes are urged to
get them into the inspection station as
soon as possible.

Justice But Not Revenge.

While the war was in progress, the Allies and the United States claimed to be fighting the battle of civilization, and they are now proving the genuineness of that claim by preparing to deal with the vanquished foe in accordance with the rules and demands of civilization. This may be disappointing to those who in bitterness of heart would pursue a policy of revenge, but it is greatly to the credit of the nations that are proving themselves big enough to follow the old Mosaic law of "An eye for an eye and a tooth for a tooth," and proceed to the work of world reconstruction like civilized men rather than like savages.

President Wilson has already assured Germany that this country will do its share toward preventing famine among her people, on condition that they maintain order and guarantee an equitable distribution of the food supplies.

And Premier Lloyd George in an address in London a few days ago took high ground in surveying the work that lies ahead. In this address there was no ranting and no hint of revenge. He insisted that the settlement must be based on justice. "No settlement," he said, "that contravenes the principles of eternal justice will be a permanent one. We must not allow any sense of revenge, any spirit of greed, any grasping desire to override the fundamental principles of righteousness. Vigorous attempts will be made to hector and bully the government in an endeavor to make it depart from the strict principles of right and to satisfy some base, sordid, squalid ideas of vengeance and of avarice. We must relentlessly set our faces against that."

That is talk of the right sort, and General Petain of the French armies takes similarly high ground when he tells his men who are to occupy German territory not to permit their resentment of German violence in France to lead them astray, but to respect persons and property in a manner to compel the world to wonder "what to admire more, your conduct in success or your heroism in battle."

All this cannot fail to be very gratifying to those who are able to rise above the passion engendered by the frightful struggle and to take a calm and sane view of the future. We would not belittle the crimes of Germany, but her punishment is also great, and it remains for the victorious nations to complete the task in hand in a way to prove to all the world the purity of their motives and the genuineness of their endeavor to make the world a better place in which to live.

Happily, they are rising to the occasion and to their opportunity. They have won a great war for right and justice, and in the arrangement of conditions for the future they are to be controlled by the spirit of justice and humanity, which, having led them to victory on the field of battle, will guide them aright in the arduous duties still to be performed.

Director General Schwab of the Emergency Fleet Corporation says the signing of the armistice will not affect the government's ship building program, and that the work will go right on. It is needless to say that the outlook thus presented is very gratifying to Portsmouth and vicinity.

They are already naming boys after General John Pershing, which is nothing to be wondered at. Yet the name of William will not be side-tracked by the ignominy of an eminent bearer of that name. The coming generations, like those of the past, will supply their full quota of "Bills."

In some parts of Massachusetts people are complaining that the coal they have laid in for the winter is fireproof. There was a good deal of that sort of stuff foisted upon the people of the country last winter and a repetition of the fraud should not be permitted.

If a reconstruction commission is necessary to ease the country from a war to a peace basis, well and good. But the people can be trusted to do a lot of the work without assistance. Americans are adept and expeditious in adjusting themselves to conditions.

The Democrats in Congress will, it is said, try to shut out Senator-elect Moses of this state on the ground that his election was not legal. They should remember the fate of those who rose in opposition to Moses of old.

The people have got along very well under the food regulations, and yet a slice of straight wheat bread will taste mighty good when it comes. And it is coming right along.

Newspapers are again at liberty to publish shipping news in their own way. Exit "An Atlantic Port."

The season's crop of abdications surpasses that of any year in history.

MUTINY QUELLED IN CONCORD PRISON

Naval Convicts Tried Out New Warden.

Concord, N. H., Nov. 15.—The furniture shops in which convict labor is employed at the New Hampshire State Prison reopened today after a week's shutdown caused by a mutiny among the inmates of the prison, led by long-term Federal prisoners from the United States navy, 40 of whom are incarcerated here by special arrangement with the National Government.

Lieut. Commander Thomas Mott Osborne, U. S. N., commandant of the Naval Prison at Portsmouth, was summoned to the scene, and, after an investigation, reported that the riot was due in part to a desire to test out a new warden who recently took charge at the prison. He anticipates no further trouble.

The rioting, yelling and singing of the prisoners during the mutiny could be heard outside the prison walls and caused some uneasiness among neighbors of the institution. Last evening the situation had cleared up sufficiently so that the prison band, composed of convicts, gave its regular concert, and today peace was fully restored.

NAVY YARD NEWS

A New Rig For Winter

A demonstration will shortly be given at the yard of a new clothing rig made especially for workmen who are engaged in outdoor work during the winter. The rig is the invention of the George F. Hensley Co., of New York and may be adopted by the men at the different shipyards as well as the naval station.

Their Own Orchestra

An orchestra of 15 pieces has been organized among the yard employees which will furnish music for the mixed minstrel show for the benefit of the Red Cross.

New Classes for Monday

New classes are being formed for the yard trades school to begin their training on Monday next.

No Industrial Band

The new band which got a start in the Industrial Department has been discontinued. The band was not encouraged by the navy department although it had great prospects of being a fine musical organization. The fact that the department would allow no time for the necessary rehearsals either than that which balanced to the musicians put a crimp in the whole affair.

Musicians Transferred

Several new faces are now seen in the yard naval band owing to the transfers lately made of clarinetists, Herman A. Feuerhahn, clarinetist, chief musician, and Jack Hanson, a baritone player, now on duty at the Commonwealth Pier, Boston. Guido Lambertini is now connected with the band at Camp Edgar, Framingham.

Drive Takes a Spurt

The United War Work drive took a spurt at the yard today, especially in the Industrial Department. The committee handling the yard part of the drive met at 3.30 this afternoon to estimate the standing. The major part of the industrial quota, \$1,500, is expected to be in the hands of the treasurer.

EDITORIAL COMMENT

The Wrong to Leonard Wood

(From the Boston Transcript) The Washington correspondent of the New York Sun, in an after-election despatch to his paper, reports "An element which is asserted by politicians to have played a great part in the complete transformation of the situation in Kansas, Nebraska and Colorado is the back-fire anti-administration feeling engendered through the treatment of Major General Leonard Wood, General Wood, commanding at Camp Funston, has impressed the National Army men under his command. That impression, favorable to the last degree, was transmitted back home and the resentment was reflected in the voting.

It is interesting to recall that the Eighty-Ninth Division, which General Wood organized, trained and commanded until he was summarily relieved at its port of embarkation without warning, without warrant and without public explanation then or thereafter, was made up of men from the States of Kansas, Nebraska, South Dakota, Colorado, New Mexico and Arizona. The returns show that Republican gains in each one of those states. The senators therein elected have given the control of the Senate to the Republicans and in addition congressmen therein elected have helped to swell the Republican majority in the House.

John Ivory Tobey of Kittery Point was born in Kittery Jan. 13, 1887, is the son of Charles W. and Mrs. Addie S. Tobey, and a former "newsie" of The Herald. He was educated in the public schools of Kittery and the Plymouth Business School in Portsmouth. He took a Civil Service examination for messenger boy, but declined the appointment and accepted a position on the navy yard with a higher salary. In March, 1917 he enlisted in U. S. N.

Lieut. Williams was born in Kittery Jan. 19, 1874 and is the son of Captain William C. Williams, a retired light keeper who passed twenty-seven years in faithful service at Boon Island Light, a barren rock about ten miles off the Maine shore.

Lieut. Williams attended the public schools in Kittery, but at an early age accompanied his parents to Boon Island Light where he spent ten years of his life.

At the age of seventeen he went to Gloucester, Mass., and shipped aboard the fishing schooner, Abbie F. Morris. He followed the sea for about five years and at the age of twenty-one was appointed first assistant keeper

It, with the rating of a quartermaster, third class, and the following September was sent to the U. S. Training Station at Bainbridge Island, Boston, Mass. He remained there about eight months and was then sent to the Signal School at the Naval Training Base at Hampton Roads, Va.

After completing the course there, and successfully passing the examination he was assigned to duty on the U. S. S. Susquehanna. He has been to France and back twice and is now somewhere in foreign waters. Young Tobey is a typical Yankee of pioneer stock and comes of fighting blood. His ancestors have fought in about every war in this country since the landing of the Pilgrims, and three of his early ancestors gave up their lives on the battlefield that this country might be free.

On the maternal side he is a great descendant of Richard Warren, who came over in the Mayflower and numbers General Joseph Warren of Bunker Hill fame among his ancestors, and one of his ancestors was the daughter of an Indian chief.

He is the great-grandson of the late Ivory Wadleigh of Dover, N. H., who had three sons in the Civil War.

On the paternal side he is descended from the Tobey's, who settled on Cape Cod in 1615 and with the famous home of Seven Kitchens. Young Tobey has recently seen exciting service and

at Boon Island, being the youngest man to hold such a position in this district. He remained at the Light about six years, then resigned from the Light Service and moved his family, consisting of a wife and two children, to the main land. He again followed the sea for about six years, then accepted a call at the local navy yard, where he remained for nine years, the last four of which he was assistant to the shipping and receiving clerk.

He enlisted March 22, 1917 on the U. S. N. R. P. at the Portsmouth yard with the rank of ensign. He has commanded four ships and on July 16, 1918 was advanced to the rank of lieutenant and appointed Division Commander in Squadron B, Division 3, and is now in command of Scout Cruiser 268.

Lieut. Williams is a man whose character is above question, and one of Kittery's promising young men.

DUTCH LEADERS IN BITTER DEBATE

(By Associated Press)

The Hague, Nov. 15.—The second chamber of the Dutch Parliament engaged in a bitter debate Wednesday. Addresses were made denouncing demands made by P. J. Troelstra that the Chamber give further details as to expected food supply from the United States. Dayid Wyankop, revolutionary Socialist, made a speech demanding the immediate abolition of the Queen and urging a general strike. He proposed that demobilized troops should refuse to surrender control of the army until they were assured of food supply for themselves and families. He remarked incidentally that Troelstra and his adherents were on the side of the bourgeoisie, "just as Scheidemann and Ebert are in Germany."

COLONIAL.

Abounding with snappy dialogue, original situations and a plot of never ending interest, "Pardon, Bedroom and Bath," the A. H. Woods' famous farce festival which comes to the Colonial Theatre on next Wednesday is said to be the most laughable entertainment of the past ten years. Fresh from a season of triumph that lasted five months in Chicago and seven months in New York where this attraction has just ended its engagement at the Republic Theatre, "Pardon, Bedroom and Bath" will be given local theatregoers in its entirety with the same production and the usual cast of the Woods' standard. What transpires when a young husband ventures into an affair at a wayward inn to convince his wife he is the "rascal among the ladies," furnished a reason for the un-soldierly laughter of the tale.

BUSINESS DISTRICT FALLS DOWN ON WAR DRIVE

Rest of City Reaches Quota But Business
Men Will Require Generous Giving
to Save Day

With but two days left of the United
War Workers' drive, the committee in
charge face the problem of getting the
city over the top in its quota, and it
will require considerable work today
and a more generous spirit on the part
of the business people to get it over.

Every section of the city has either
reached its quota or will be so, except
the business section, and this was not
more than half subscribed on Friday
evening, although the teams have al-
most completed the canvass.

At a meeting of the team captains
and workers on Friday evening, the
matter was thoroughly gone over and
a plan of campaign laid out. Char-
man Randall reported that the Morley
Hutton and the Gale Shoe Company
were practically sure of their full
quota and that in most cases the em-
ployees have given a full day's pay, one
large room at the Gale factory getting
a hundred per cent in this respect.

The Shattuck ship yard have their
quota in sight and will make their
final clear up today. At the Atlantic
they are having the finest drive since
the plant has been established. A
stagnon of \$5 per man was picked up
and many of the shops have already a
hundred per cent mark and in many
cases the men are even subscribing
twice that amount. They are going
over the top with a bound. When
their hustling employment manager,
Mr. Dowdell, informed the men the
quota he had promised, they went him
one better by raising it two thousand
dollars more and they set to make
good their promise.

The navy yard has not made any
report for Friday, but unofficial re-
ports received are that the half a
day's pay is being generally followed
and some of the shops have pledged
the full day's pay.

The women's committee had a quota
of \$4,000 and they had it pretty well
collected on Friday evening, and they
were confident of making the full sum.

The business men teams, who have
charge of the business district, which
includes all of the professional and
business men and employees, had a
quota of \$12,000, and up to Friday
evening they still lacked one-half of
it. The teams have been working for
two days and have practically com-
pleted the district, and while there
were but very few names reported as
refusing to give, the sums were small
and the total not anywhere near what
it should be. Some of the businessmen
have been generous, but others have
failed to get the spirit of the campaign
and have been satisfied to give small
sums. The clerks as a rule have given
a half day's pay and many a full day's
pay, and in some cases the clerks' con-
tribution has exceeded the proprietor's.

While many of the good sized con-
tributors have doubled their subscrip-
tions or at least increased it some,
others have cut theirs in two, so while
the teams have worked hard and made
a most thorough canvass, the size of
the contributions were not enough.
The committee consider that no busi-
ness man should consider \$5 as his
part in this great drive; there are none
in their opinion who could not at least
well afford to give \$25. Today the
teams will go over the district and
hope that in many cases the subscrip-
tions will be doubled and in many
cases brought to where they should be.

Booths were established in the two
theatres on Friday and they will pick
up considerable money and everybody
who has not got a button today will
be asked for a subscription. The
Country Club will hold a golf tourna-
ment today for the War Work and
expect to make a good offering.

ATLANTIC TRUCK DRIVER IN ACCIDENT

Beverly, Nov. 16.—Four persons were injured in automobile accidents in Beverly on Friday.

Bill Munson, aged 13, of 3 Cabot street, was knocked down by an automobile driven by Mrs. Alice Adams, 2 Naples road, Salem, near the Beverly bridge on Cabot street. She is at the Beverly hospital suffering from a fractured right leg.

William Raymond, aged 8, 23 Eastern avenue, while running to catch the rear of an automobile truck on Eastern avenue, dashed in front of an automobile driven by William L. Wood, 10 Winthrop avenue, and is at the

Beverly Hospital with his right leg fractured above the knee.

Nathan Wadsworth, driving a truck belonging to the Atlantic Corporation of Portsmouth, N. H., collided with a light touring car driven by Arthur Spaulding of Topsfield on the Newbury port turnpike. The truck crashed into a telephone pole, snapping it off, and toppled into a ravine. Wadsworth was thrown against a tree, his leg was taken to the Beverly Hospital, bruised and shaken, and possibly suffering from internal injuries. The automobile was overturned by the collision and Spaulding was pinned underneath. He was severely cut and was taken to his home.

SHIPBUILDING TO GO ON STEADILY

Designs Will be Changed with Commerce in View Rather

Washington, Nov. 15.—While shipbuilding in this country is to be continued steadily, the program of the shipping board, based on war needs, will be revised, and designs for ships will be changed with particular reference to economic cost of operation.

Chairman Hurley said yesterday that the need for building American-owned tonnage is obvious. Not only must we continue to supply our armies overseas and prepare to bring them home at the earliest moment compatible with safety, but Europe must be fed and supplied with the necessary materials to permit the reconstruction of devastated areas, in order that both our friends and our enemies may become self-supporting and the burden of feeding the world taken from our shoulders.

"There are not enough ships in the world to carry on this work and to provide immediately for ordinary commerce. For that reason only a limited portion of the shipping which can be constructed by us in 1919 will be available for use in the ordinary commercial channels.

"For two months the shipping board has been making a complete survey of its construction program and contracts. Believing that the emergency war pressure which necessitated speediest construction possible would soon end, the investigation has been with a view to a replanning of the ships to be constructed from this date forward. Ships will be built for speediest service and with particular reference to economic cost of operation, including motive power, cargo space and speed."

"COMING HERE AHEAD OF BOSTON APPEARANCE."

"The Kiss Buzzer," the latest musical comedy success with a large cast of players well known to metropolitan theatre-goers, will be the attraction at the Colonial Theatre for one night only, Tuesday, Nov. 19th. Previous to the Boston appearance.

"The Kiss Buzzer" is the latest work of Glen MacDonough and Raymond Hubbell, the former having provided the book and lyrics and the latter the music. The play was staged under the direction of Julian Mitchell and Edward MacGregor, who have long been superiors in the field of producing musical plays.

The story of the piece is withheld, not to mar the interest of the auditor. Aside from the theme, which has been pronounced by those who have seen the play, as both novel and highly entertaining, the score contains a number of decided hits which are among the most popular songs of recent years. A few of these are: "A Little Class of One," "The Breeze and Me," "Since I Met Wonderful."

STATE OF NEW HAMPSHIRE

PUBLIC SERVICE COMMISSION

To the Public Service Commission,

Concord, New Hampshire,

Gentlemen:

The Rockingham County Light and Power Company of Portsmouth, New Hampshire, furnishing electric current for light and power purposes in the city of Portsmouth and various towns in said state, namely, Greenland, North Hampton, Rye, New Castle and Seabrook, hereby gives notice of its intention to withdraw its coal contracts, the same now appears under section seven (7) of its Terms and Conditions annexed to the rate schedule of said Rockingham County Light and Power Company now on file in your office, and to substitute in place thereof the following:

Company of coal of 11,500 B. T. U. per equivalent exceeds \$1.50 per long ton (this cost to include delivery to the company's storage) and to the average cost of all coal held in said storage on the first day of the month, together with all coal received during said month, the rate for energy used in said month will be increased by a net amount per kwh. equal to the actual increased fuel cost per kwh. as shown by the company's production records over what the cost would have been had the price of coal been \$1.50 per long ton.

If the cost of coal calculated as above is less than \$1.50 per long ton for a coal extending a consecutive month, the rate for energy used during said month and as long as the cost of coal is less than \$1.50 will be decreased by a net amount per kwh. equal to the actual decreased fuel cost per kwh. as shown by the company's production records over what the cost would have been had the price of coal been \$1.50 per long ton.

The said new clause is to be made effective thirty days from the date hereof and will apply to bills rendered on and after December 1, 1918.

Respectfully submitted,

(Signed) Frederick L. Webster,

Secretary.

Upon the foregoing proposal to place in effect a revision of its rate schedule, filed October 31, 1918, it is ORDERED, that all persons desiring to be heard by this commission with reference to the reasonableness and lawfulness of said proposed rates file their request for hearing thereon with this commission not later than November 23, 1918, and that said Rockingham County Light and Power Company give notice of said rates and of this order appearing the same by causing an attested copy of this order to be published in the Portsmouth Times and Portsmouth Herald, newspapers published in Portsmouth, in said state, not less than three times, the last publication to be not later than November 13, 1918.

By order of the Public Service Commission this seventh day of November, 1918.

WALTER H. TIMM, Clerk.

Attest: WALTER H. TIMM,

Clerk, N. H. Public Service Commission.

You "I Want to Learn to Dance," "Shimmering, Glimmering Nile," "Little Black Sheep," "Solitary Lane," "Temperament," "The Rose" and "The Manteplage Tragedy."

An unusually large cast is concerned in the exploitation of the play, among the principal members being: Patricia O'Hearn who appeared for two solid years in support of Al Jolson in the New York Winter Garden production, Henry Conte who was especially engaged for the London, England, Company of the Chocolate Soldier and the only member of that organization requested by the late King Edward VII. to appear before his Majesty for the purpose of rendering several selections from the Opera. Sale of seats opens today, at the box office.

MAY COME IN PLACE CONFERENCE AN ONCE

(By Associated Press)

Washington, Nov. 15.—Developments in Europe, not only in a military sense but politically, manifested by the spirit of unrest in the Central Powers, has induced the Allies and Americans to arrange to meet for the peace conference at a much earlier date than was first anticipated.

The Atlantic cables were burdened today with government business believed to be an exchange of opinion and keeping in touch with the International Council, who are in session making the preliminary plans for the conference.

Berlin, via wireless to London, Nov. 15.—The new German government has sent a message to President Wilson, appealing to him in order to save the German people from starvation and riots to send plenipotentiaries and act as quickly as possible to the Hague or some other agreed upon place for the conference.

THANKS THE PRESS.

Navy Yard, Portsmouth, Nov. 11.

My Dear Major Hartford:

Now that the ban of voluntary censorship assumed by the press on military and naval affairs is being removed, I wish to take the opportunity to convey my personal thanks to you for not divulging, during the period of the war, the arrival and departure of United States warships at this port.

I feel strongly that the winning of the war has been the result of everybody pulling together, and I assure you that I know how large a part the press has played in assisting the Army and Navy Departments.

Thinking you again for your kindly co-operation, I am

Very sincerely yours,

C. W. BIGELOW,

Communication Officer.

RAYMOND BOY IN BATTERY

PAID BY GEN. EDWARDS.

Raymond, Nov. 15.—Private Fred G. Avery, son of Mrs. Sherburne Blake, has received the following honor from Major General C. R. Edwards:

"To Pvt. Fred G. Avery, Battery D, 103rd Field Artillery, I have read with much pleasure, the reports of your regimental commander and brigade commander regarding your gallant conduct and devotion to duty in the field on April 20-21, 1918, while repelling a fierce enemy attack. Your sector, and have ordered your name and your deed to be entered in the record of the Yankee Division."

C. R. EDWARDS, Major General, Commanding 26th Division.

SEND IN CLEAR PICTURES

Send in the best picture you can get of your soldier or sailor lad for the Herald's daily picture gallery. The best picture will make the best cut, but a few have been sent in that are not clear and others rather small and such, of course, do not show up in the paper as well as cuts made from better photographs or even snap shots. They will be returned after used to the owners. Send in the best and clearest pictures. Pictures and sketches will be run daily of those in the service from Portsmouth or adjoining towns.

MISSIONARY MEETING.

The Woman's Missionary Society of the Middle Street Baptist parish held its first meeting of the season Wednesday afternoon at the home of the president, Mrs. Mary French, 45 Union street. Seven persons were admitted as members at the business session.

The program was in charge of Mrs. Williams, who has lately taken up her residence in this city. She formerly was engaged in missionary work in China and told of some of her experiences there.

PRESENTED WITH GOLD WATCH

Mr. Fred Davis, foreman at the plate shop at the Atlantic Corporation, who has resigned his position to take effect today, was given a surprise on Friday when at a meeting of the men he was called in and presented with a handsome gold watch, as a token of their appreciation of his good work and friendly associations with the men.

LIVING CONDITIONS AT THE SHIPYARDS

Work Hampered by Circulating of Malicious Reports.

The State committee on Public Safety is cooperating with Federal Director Enos K. Sawyer of the U. S. Employment service in New Hampshire in the effort to correct erroneous impressions concerning the living conditions in Portsmouth and other towns and cities near the ship building plants. Reports which have been circulated either maliciously, or thoughtlessly have had a tendency to keep many men badly needed, away from the shipyards, thus hampering the government's ship building program. These have to do mainly with the quality of the food provided and the housing conditions, the stories having it that the cost is exorbitant and the quality dubious. Mr. Sawyer declares the stories without foundation, the cost of food being not more than is generally the case in other cities.

Secretary R. W. Hunsbaur of the public safety committee had the Portsmouth public safety chairman investigate the reports some time ago and the report came back that while housing conditions were more or less congested, it was not impossible to handle the situation and that conditions were being improved constantly.

The Herald tries to give both parties the news.

ADMIRALS BUSY BOTTLING HUNS

Will See that Naval Terms of Armistice are Strictly Obeyed

Paris, Nov. 15.—Rear Admiral S. S. Robison has been appointed American member of the naval commission to arrange for execution of the naval terms of the German armistice.

Admiral Robison arrived here Monday from the United States, and on receipt of his appointment, left yesterday for London to take up his duties.

Rear Admiral Bullard has been appointed American representative to see to the carrying out of the naval terms of the Austrian armistice. He is now at Pola, the great naval base in the Adriatic, and has telegraphed Admiral William S. Benson, American chief of naval operations, that the execution of the naval terms of the armistice is proceeding satisfactorily.

The United States now has two cruisers, a destroyer and 36 submarine chasers in the upper Adriatic, at or near Pola, under command of Rear Admiral Bullard.

Admiral Benson ordered the fast cruiser Birmingham to proceed from Gibraltar to Pola, and also the collier Leclandre, 36 chasers and a destroyer to proceed from Corfu to Pola. These have now arrived, giving the United States a considerable representation in ships and men.

Chasers have been directed to proceed along the Dalmatian coast, visiting Durazzo, Soutari and other points on the coast, so that the American flag may be seen by the inhabitants.

What often appears to be a serious, ruinous crack or break in a cylinder, casting or piece of machinery, is but a simple piece of repair work to our Expert Welders. Our welding work wonders in repairing broken metal parts—parts that would have to be "scrapped" before the process was invented. Remember, our welding generally makes the broken part stronger than it ever was. Inquiries invited.

HEALTH TALKS AT GRAFFORT CLUB MEETING

Under the community department of the Graffort Club a special meeting was held by that organization Friday afternoon in the Woman's Building on Middle street. Dr. Martha I. Roger, chairman of the community department presided.

The principal speaker was Dr. Charles B. North of New York, secretary of the American Academy of Public Health who spoke on "Public Health Needs of the Community." He talked first on milk and how necessary it was to have it pure. He told of pasteurized milk in New York City, saying at first there were but three firms selling it and now there are more than 75 dairy firms who supply pasteurized milk to customers.

He said it was owing to the government's endeavor to protect the men of the fighting forces we were fortunate enough to be in a public health zone, as the board of health of a city finds it difficult to deal with every matter coming up on account of its many duties. Epidemics of scarlet fever and many cases of typhoid fever are often traced to impure milk and often in a septic sore throat. He told of three towns in the state of New York having an epidemic of diphtheria that was traced to impure milk. He urged the women of the community to become interested in starting a pure milk campaign.

While in Portsmouth yesterday Dr. North visited several of the dairy farms in this vicinity.

Dr. Stone of the local public health service spoke on "Epidemics" and gave some information well worth hearing. He then introduced Dr. Kerr of Manchester who spoke on "Tuberculosis." He told something about the work of the sanatoriums at Glencliff and Pembroke, this state, and spoke of the accommodations not being adequate for the large number of cases in the state. This Christmas, he said, the Red Cross seals to help stamp out tuberculosis would not be put on sale as that organization had given funds for the purpose out of its collections.

NEW MAN APPOINTED FOR POLICE BOARD

Arthur F. Howard Will Succeed Frank E. Leavitt.

The vacancy in the police commis-

sion which has existed for several months has at last been filled by the governor and council in the appointment of Arthur F. Howard who will succeed Frank E. Leavitt.

Mr. Howard is connected with the Granite State Fire Insurance Company as an inspector and adjuster and was a former superintendent of the Portsmouth Electric Railway. He is an active business man and should make a valuable member of the board which manages the police department. There were three or four other applicants for the position.

The appointment of a third man has been so long delayed, it was generally expected that it would not be made until the new administration came in.

MOLDERS GO ON STRIKE AT NAVY YARD

Protest Against Prisoners Being Allowed Work in Shops

Because their protest against the employment of the naval prisoners in the shops about the navy yard was not heeded, the molders on Friday afternoon quit work at 3.30 and declared that they would not return to work until the matter had been adjusted.

This objection to the use of prisoners doing work about the yard in the shops and work that should be done by civilian labor has been one of long standing and it was settled before the war, but during the war when there was such a rush of work and when it was impossible to secure laborers and helpers the prisoners were used and continued to be used.

As soon as the war was over and all over-time was cut out, the molders objected to the prisoners being allowed in the shops. This was taken up with the proper authorities and it was thought to have been settled.

The matter came to a head on Friday afternoon when the prisoners were sent into the shop to do certain work. The workmen objected and they were withdrawn and later they were ordered back. Then the Union leaders notified the shop superintendent that unless the men were removed from the shop and ordered to remain away, they

would quit work and at the expiration of the time they did leave.

They subsequently called a meeting of the Union and sent the following telegram to Secretary of the Navy Daniels:

"Molders at Portsmouth navy yard have quit work as a protest against working prisoners in foundry after agreeing not to use them inside. We ask investigation."

"LOCAL NO. 403"

They also sent a like telegram to Joseph Valentine, president of the National body, asking that a representative be sent here.

On Friday evening the Metal Trades Union of this city, at a meeting, endorsed the action of the molders. Union, who quit work on Friday at the navy yard as a protest against the employment of prisoners at the navy yard, and they sent a telegram to the Secretary of the Navy and to the president of the Metal Trades Union, asking that an investigation be made.

The Union men claim that they made no protest when there was a shortage of men, but when there was enough civilian employees to do all of the work that was against the Union's rules to work with prisoners and that they intend to live up to it.

THE HERALD HEARS

That the grievance of the molders at the Portsmouth navy yard over prison labor, has led up to the first real strike in the history of the yard. That past labor troubles have led up to protests, etc., but not to an occasion in which the men quit work. That some of the female operators at the navy yard who live in other cities are getting in on the ground floor.

That they are going back home and seeking good jobs outside the government.

That they are acting on rumors that a discharge may come any time.

That at present there is no real reason for this and the women are jumping at conclusions.

That Portsmouth has got to get busy on the war fund drive to meet the quota.

That the loading law is still in effect.

That only \$5,000 was in the hands of the local treasurer of the United War Fund this morning.

That more speed is necessary before the closing hour of the drive on Monday night.

That the managers of the proposed political banquet in Ward 5 have invited so many guests it will require a space as large as Madison Square Garden, New York, to get them in.

That one of the managers threatens to resign owing to the proposal of one of his associates that grape juice be included in the menu.

That another has a kick because the affair is not going to be held at Rollins Farm.

That another is heard with a howl to let the women in on the feed.

That the bright lights will soon be burning at the B. & M. depot at night.

That the passengers on the B. & M. trains arriving at the depot from Boston at night, do not like the idea of getting off up in the freight yard.

That the railroad should arrange to light the yard if passengers are obliged to get off in the jungles.

That the necessary platform or a walk of some kind should be another improvement made for the benefit of the traveling public.

That women with children complain bitterly of such conditions at the railroad station.

That the man who does not get his name on the voting list has no kick if he reads the local papers.

That the board of registrars should do no spasmodic advertising of these meetings.

That a standing notice should be kept in the papers until the last meeting prior to election.

FIRE CAUSES \$5,000 LOSS AT R. R. CAR BARN

Blaze Starts in Stock Room; Men Taken Out Unconscious.

Fire which caused \$5,000 loss to the property of the Portsmouth, Dover & York Street Railway car barn and rotary station at South Berwick, broke out about 1.30 this morning. The blaze started in the stock room of the ground floor and quickly spread to the sleeping quarters of the men on the second floor, where eight men were sleeping. Watchman Leon Blaisdel, who discovered the fire, gave his first work to arousing the men. Two of them, Gordon Davis of South Berwick, and William Blake of Kittery, were found unconscious and had to be carried from the burning building.

The men lost much clothing and other valuables. The fire caused the telephone lines of the company, also those of the New England Telephone Company to go out of commission, thereby cutting off the station completely from the outside world.

Miss Mollie Flynn, living nearby, did great service and it was through her efforts that much of the property was saved from destruction. Racing at top speed in her automobile, she summoned all the people she could to fight the flames, and brought doctors to treat the unconscious men. In addition to this she made a run of three miles to Dover to summon the fire department, which made a quick run and did excellent work.

The company had just moved many supplies from Kittery Point to the stockroom at South Berwick, all of which were destroyed along with many tools and several armatures. The steam heating apparatus in the basement was put out of commission.

The volunteers and the Dover firemen prevented the fire from reaching the rotary plant and there is no delay in traffic today. The cause of the fire is unknown at present. The officials are making an investigation today.
